POWERING
THE FUTURE

Logic Plus™ 30W Fast-Charging USB Type A+C.Sockets

MK Electric's market-leading Logic Plus wiring devices now includes a 30W fast-charging USB solution. Expertly manufactured in the UK and installed in buildings globally, the product fits the growing demand for efficient USB device charging — safely and reliably.

The new 30W USB Type A+C charger features GaN technology and Power Delivery (PD) protocol, to provide fast charging in a compact size. Smart efficient charging can deliver power to a wide range of electronic devices and charges them quickly.

Choose from our classic white or graphite grey finish, each with a double pole, dual earth design and covered by a 5-year MK guarantee.

FEATURES

POWER DELIVERY (PD) PROTOCOL

- The charger will communicate with connected electronic devices using PD protocol to negotiate charging parameters (current/voltage), in order to optimize charging speed and also protect the battery health
- One 30W universal USB PD will be able to power a wide variety of electronic devices
- Charge mobiles to 50% within 30mins

GAN TECHNOLOGY

- GaN device is smaller, reducing device size
- Higher power efficiency

SUSTAINABLE

- Eco design, standby power <100mW
- Adopt Type-C to drive e-waste reduction following new EU regulation
